

Major advancements in cardiac electrophysiology and heart failure.

January 5-6, 2017.

Thursday, January 5, 2017

	<i>Major advances in ablation therapy (EP group)</i>
	<i>CHAIR: Roy Beinart, Mahmud Suleiman.</i>
09:30-10:00	<i>Management of VT: catheter ablations and beyond.</i> Kalyanam Shivkumar, U.C.L.A, USA.
10:00-10:30	<i>High-density mapping and ablation of complex arrhythmias.</i> Frederic Sacher, Bordeaux, FRANCE.
10:30-10:45	DEBATE: FIRE <u>or</u> ICE? <i>Cryoablation: The way to go in atrial fibrillation.</i> Karl-Heinz Kuck, Hamburg, GERMANY.
10:45-11:00	<i>RF ablation: The way to go in atrial fibrillation.</i> Raphael Rosso, Tel Aviv, ISRAEL.
11:00-11:10	<i>Questions and answers.</i>
11:10-11:30	<i>Paroxysmal AF is for cardiologists... but persistent AF is for surgeons.</i> Mark La Meir, Maastricht, the Netherlands.
11:30-12:00	<i>PANEL DISCUSSION:</i> <i>Karl-Heinz Kuck, Niv Ad, Amos Katz.</i> <i>Ablation of atrial fibrillation:</i> <i>WHO should get it?</i> <i>WHO should do it?</i> <i>And HOW should we do it?</i>
12:00-13:30	Lunch

	Major advances in heart failure therapy.
	<i>CHAIR: Lior Gepstein, Jean Marc Weinstein.</i>
13:30-13:35	Welcome: Feel yourself at home. Sami Viskin
13:35-13:45	Drug therapy for heart failure: Anything really new for 2017? Israel Gotsman, Hadassah, Jerusalem, Israel.
13:45-13:55	Treatment of diabetes by cardiologists TBA.
13:55-14:10	How to guaranty a good response to CRTD in 2017? Angelo Auricchio, Lugano, Switzerland
14:10-14:05	Questions and answers on heart failure.
14:05-14:20	Intractable heart failure and VT: What comes first, LVAD or VT-ablation? Kalyanam M. D. Shivkumar, U.C.L.A.
14:20-14:35	Mitral regurgitation and LBBB: What comes first, CRTD or mitral clip? Angelo Auricchio, Lugano, Switzerland
14:35-14:45	Questions and answers on interventions in heart failure.
15:45-15:05	Pacemaker-associated tricuspid regurgitation: it's not you, it's your lead.... Yoram Agmon, Rambam, ISRAEL.
15:05-15:20	Why do some patients with AV block go into heart failure? Yan Topilsky, Tel Aviv, ISRAEL.
15:20:16:00	Pipi & coffee break

	Atrial fibrillation: diagnosis and therapy in 2017.
	<i>CHAIR: Moti Haim, Amit Segev.</i>
16:00-16:10	The "rhythm- vs. rate-control" dogma revisited. Eyal Nof, Sheba, ISRAEL.
16:10-16:30	Tricuspid regurgitation BECAUSE of atrial fibrillation. Luigi P. Badano, Padua, ITALY.
16:30-16:35	Questions and answers
16:35-16:50	NOAC therapy for AF: When and how to use in 2017? Hein Heidbuchel, Antwerp, BELGIUM
16:50-17:05	NOACs for AF and renal failure: Real-life data from the Israeli Registry. Ilan Goldenberg, Sheba, ISRAEL.
17:05-17:25	RF ablation of <u>asymptomatic</u> atrial fibrillation to prevent long term complications and avoid the need for anticoagulation:

	Are we there yet? Karl-Heinz Kuck, Hamburg, GERMANY.
17:25-17:35	Questions and answers.
17:35-17:50	Left atrial appendage occluder: Who should get it in 2017? Amir Halkin, Tel Aviv, ISRAEL.
17:50-18:00	Close it from the outside: introducing Atriclip. Niv Ad, USA.
18:00-18:30	Coffee Break
	Mi-ani, ma-ani to close the evening. CHAIR: Nahum Freedberg, Ran Kornowski.
18:30-18:50	The future of cardiovascular interventions: a journey from maximally invasive to non-invasive and prevention. Kalyanam M. D. Shivkumar, U.C.L.A.
18:50-19:10	History does not look like history when you are living through it: The tale of long QT and Brugada syndromes. Sami Viskin, Tel Aviv, ISRAEL.

Friday, January 6, 2017

08:30-09:00	Business meeting of the Israel Working Group on Cardiac Pacing and Electrophysiology.
	Right ventricular dysplasia/cardiomyopathy in 2017. CHAIR: Michael Arad, Bernard Belhassen.
09:00-09:15	Congenital laminopathy: what the cardiologist should know. Frederic Sacher. Bordeaux, FRANCE.
09:15-09:35	Non-invasive imaging of right ventricular dysplasia. Luigi P. Badano, Padua, ITALY.
09:35-09:55	Exercise-induced ARVC: why, who and what to do? Hein Heidbuchel, Antwerp, BELGIUM.
09:55-10:15	Arrhythmogenic right ventricular cardiomyopathy: Substrate imaging and ablation. Frederic Sacher. Bordeaux, FRANCE.
10:15-10:30	What would you do? - Case presentations TBA
10:30-11:00	Coffee break.
	Device related infection: Prevention and treatment in 2017. CHAIR: David Luria, Gad Keren.

11:00-11:15	<i>Infection stops here! Proven means of prevention.</i> Muaro Biffi, Bologna, ITALY.
11:15-11:30	<i>Is the localized pacemaker infection really localized?</i> <i>PET/CT/MRI in clinical decision making</i> Ashraf Hamdan, Rabin Medical Center, Israel.
11:30-11:45	
11:45-12:00	<i>Treatment of localized device infection without extraction: 8-years follow-up</i> Morris Topaz, Hedera, ISRAEL.
12:00-12:15	<i>Who is afraid of total extraction? The Israeli experience</i> Michael Glikson, Sheba, ISRAEL.
12:15-12:30	<i>The wearable defibrillator: Who should wear it in 2017?</i> Ilan Goldenberg, Sheba, ISRAEL.
12:30-12:35	<i>Thank you, thank you, thank you.....</i> Sami Viskin
	Lunch

Saturday, January 7, 2017

09:00-09:30	Home-monitoring של אספקטים חוקיים של יושב ראש: אריה מיליטיאמו מרצה: דר' שי פויירינג, עו"ד
